Philosophers include Socrates, Plato, Aristotle, Descartes, Spinoza, Kant, Mill, Bergson, James, Dewey, Sartre, Deleuze, Nancy, and Massumi. Themes include eidetic intuition, metaphysics, normative meta-ethics, virtue, deontology, utilitarianism, the good life, rationalism, empiricism, idealism, materialism, dualism, monism, pluralism, Enlightenment, skepticism, pragmatism, aesthetics, existentialism, phenomenology, transcendence, and immanence.

Student Resources and Basic Needs

Students are humans first. To learn effectively you must have basic security: a roof over your head, a safe place to sleep, enough food to eat, and other necessary external goods. If you or another student you know are having trouble with any of those things, please talk with me or use the campus resources available.

Grading Policy

Please refer to the current University Catalog for additional information regarding grades and course withdrawal policies. For this course, (i) weekly video discussion board exercises, such as oral responses to the main idea or a choice of guiding questions, are graded on pass/fail for accuracy; and (ii) webcam-recorded timed essay exams are graded according to the following scale (adapted from Dr. Robin James):

A (90-100)	Thorough and critical understanding of the issues – subtly summarizes the major issues while also offering insightful interpretation. Outstanding argumentation, organization, and writing (grammar, vocabulary, etc.). No misunderstandings. Clearly above and beyond expectations. Excellent presentation of key ideas.
B (80-89)	Above average understanding, not as creative or exegetical as an A level product, nor does it capture all the ‘complexities’ of the issues. A thorough recapitulation of the text and/or discussion. Adequate argumentation, organization, and writing, with few presentational awkwardnesses. No misunderstandings of key ideas.
C (70-79)	Basic understanding, marked by <i>one or more significant errors or mis-readings</i> . Confused, disorganized writing that may address lots of information, but does not thematize or interpret it. Does not respond directly to all components of prompt.
D (60-69)	Very basic grasp of the material, presented in a highly confused manner.
F (50-59)	No comprehension of the material, and/or an utterly incomprehensible paper.
M/INC (0)	Missing/Incomplete. All earnest efforts will receive a minimum grade of 50.

This class follows a 1000-point total structure, but I round up such that 890+ points is an A, 790-889.9 points is a B, 690-789.9 points is a C, etc. The rounding is a hard cutoff. Note also there are 1075 points possible in the class, out of 1000, meaning there is an additional 7.5% worth of extra credit in the course.

The following point breakdown will be used to calculate your numerical grade:

{1075 points possible w/ extra credit}	1075 points / 1000 points
Webcam-Recorded Timed Essay Exams:	450 points / 1000 points
Unit 1: Intuitionism	100 points
Unit 2/3: Ancient / Modern Philosophy	100 points
Unit 4: American Pragmatism	100 points
Unit 5: Continental Philosophy (Final)	150 points
Primary Sources Preparation:	400 points / 1000 points
Audiovisual Readings / Video Lectures	400 points
Weekly Video Discussion Board Exercises	150 points / 1000 points
Oral Responses to Guiding Questions	150 points
Extra Credit:	75 points / {null} points
Digital Annotations (+10% per exam)	45 points
Annotations Set Sweep (if earned all four)	30 points

I reserve the right to curve exams but am more likely to create an extra credit debrief targeting specifics.

Grading Feedback Expectations

I will return grades via Canvas within three weeks after the exam date, with specific itemized feedback.

Graded Attendance, Participation, and Preparation

Ungraded

- Attendance
 - This class is asynchronous, but modules open on a unit-by-unit basis as we progress.
 - Attendance is not graded, but watching weekly video lectures is graded as preparation.
 - Oral responses to guiding questions are required weekly and graded pass/fail on accuracy.
- Participation
 - Taking **notes on digital Perusall PDF readings for reference during timed exams.**
 - **Annotating**, underlining, and highlighting digital PDF readings, not just for help during your exam, but for **extra credit; two-thirds** of the unit must be marked substantively to earn the +10% extra credit on the exam. I will grade these at the end of the exam week; annotation edits will close with the Respondus Monitor exam, at end of week, 11:59pm.
 - **Discussion board written responses** to classmates' oral responses to guiding questions.

Graded

- Weekly Video Discussion Board Exercises (Participation)
 - **Weekly video discussion board activities and oral responses** to guiding questions, **pass/fail on accuracy.** You won't be able to see other students' discussion board video responses to the guiding questions until you post your own. After you post it, you can watch your classmates' responses and learn from how they are approaching the text. You can comment on their videos, but the comments won't be graded as part of the rubric. Civility and respect are non-negotiable expectations.
 - Preparation
 - **Digital readings will be necessary for the videos, studying, and exams and are thus considered preparation but are ungraded.** By participating during the videos lectures / audiovisual readings, you prepare for exams (hence the convoluted bullet structure here).
 - **Guiding questions** and responses studied with videos; see above, "Weekly Exercises."
 - **Audiovisual readings watched** to facilitate your thinking and written argumentation.

Late Work and Make-Up Work Policy

If something comes up that will interfere with your engaging class, **especially** for any of our four exam dates, please let me know sooner rather than later. However, if there is a present emergency, please deal with that first and contact me later — you need not, for example, email me from the emergency room.

Missing exams may be taken late, until the end of Week 14, but will be graded down by three letter grades (e.g., -30%). Missing exams taken late but before Week 10 will only be graded down by two letter grades (e.g., -20%), to encourage catching up early. Note only the first two exams can be made up at this reduced rate. Exams submitted as make-up work for an excused absence can of course be taken without deduction.

Tech issues are expected to be tested and problem-solved beforehand. Only one tech make-up is excused.

Oral responses submitted as weekly video discussion board exercises cannot be turned in late *except in the case of an excused absence*, due to community respect for other students and the flow of class.

Use of Artificial Intelligence (AI)

AI use is not permitted in this course. AI use will result in an “M/INC” grade designation of 0 points, as this course is intended to teach you to think for yourself and to communicate your thinking without aid. Did you know AI causes (often rural) water depletion at its industrial data centers? Your brains can utilize 16 ounces of water (the amount consumed per query/prompt) better than the AI data centers can do so.

Learning Resources

My Office Hours are listed above; you are always welcome to ask me questions; I encourage discourse. You are welcome to stop by to ask about assigned readings, continue class discussions, get feedback on essays and term papers in advance, get clarity with the assigned reading, or meet my German Shepherd (either digitally or outside on-campus, if feasible).

[The Stanford Encyclopedia of Philosophy \(SEP\)](#) is better than AI (use Ctrl+F to find keywords instead of AI). This is a great secondary source if you are struggling with the primary sources assigned in class. You can also use the SEP to help identify promising secondary sources, topics for term papers, and the broader discourse, context, and interpretation around assigned primary sources, both for reading and for writing.

All changes will be announced via the LMS, which should hopefully forward to your email.
